

## Discrepancies with the Early Voting Ballot for City Elections

- Two errors have been found on the early voting ballot for the city elections:
  - 1<sup>st</sup> Error:
    - Wording was found to be missing on the English version for propositions B & E.
    - The company that programmed the ballots has taken responsibility for the error in the wording of the two propositions.
  - 2<sup>nd</sup> Error:
    - City council candidate's name Donna Harvey Schulman was not displayed as requested by the applicant.
    - The City of Palacios has taken responsibility for the error regarding the candidate's name as displayed on the ballot.
- We have been following the Secretary of State's guidance since the discovery and notification of these errors.
- We have been notified that all ballots cast prior to discovery of the errors are valid and will be counted.
- Until further notice, we are using paper ballots while the errors are being corrected during the early voting period.

***(Please note that there are NO ERRORS or ISSUES with the Palacios Independent School District's Board of Trustees election ballot.)***
